

Incident Coding Sheet 2007

Code	Short Title	Description
2.0	speed	vessel traveling over 7 knots w/in 400y /366m of whales, fast w/in 1/4 mile (440y /402m)
2.1	speed - approaching scene	vessel traveling over 7 knots w/in 400y /366m of whales, fast w/in 1/4 mile (440y /402m)
2.2	speed - departing scene	vessel traveling over 7 knots w/in 400y /366m of whales, fast w/in 1/4 mile (440y /402m)
3.0	path	w/in 100y/91m corridor path in front of whales between 100-400y /91-366m ahead of whales
3.1 *	path - failure to move	in path of whales and failing to make adjustments before 100y/91m
3.2	path - travel corridor	parking in a known whale travel corridor
3.3	path - cross	crossing path of whales, vessel traveling across expected path of whales when whales are traveling in a relatively predictable pattern (large/small group)
3.4	path - adjusting position	in path but adjusting course to accommodate 100y /91m corridor/buffer
3.5	path - adjust maintain position	vessel adjusting position to maintain location w/in 100y /91m
4.0	approach	non-compliant approach
4.1	approach - head on	vessel approaching a whale/group head on w/in 100-400y /91-366m when whales are traveling in a relatively predictable pattern
4.2	approach - behind	vessel approaching/traveling behind a whale/group w/in 100-400y/91-366m when whales are traveling in a relatively predictable pattern
4.3	approach - perpendicular	vessel approaching from the side of a whale/group w/in 100-400y/91-366m when whales are traveling in a relatively predictable pattern
5.0	100meters/109yards	vessel w/in 100y /91m of whales
5.1 *	100m/109y - stopped	vessel stopped w/in 100y /91m of whales
5.2	100m/109y - under power	vessel under power w/in 100y /91m of whales
5.3	100m/109y - approaching	vessel under power approaching to w/in 100y /91m of whales
5.4	100m/109y - fishing	vessel fishing w/in 100y /91m of whales (therefore didn't attempt to move out of path of whales)
7.0	inshore	vessel on the inshore side of whales, when whales are traveling close to shore in a relatively predictable pattern
8.0	time	vessel is staying longer than 30 minutes w/in 400y /366m of whales
9.0	interaction	swimming, feeding, touching wildlife
9.1	interaction - other	other interaction (water skiing, etc)
10	Other: Define	something out of the ordinary or site specific DEFINE
13	Parked In Path 3.1 and 5.1	vessel stopped within 100 yards of whales; did not adjust out of path before 100 yards

Incident Coding Sheet 2007

Code	Short Title	Description
20.0	bowriding	
20.1	bowriding - erratic	vessel operating in erratic fashion while engaged in bowriding
20.2	bowriding - deliberate	vessel deliberately attempting to have animal(s) bow/stern ride
30.0	haulout - speed	vessel over 7 knots w/in 200y /183m of haulout
31.0	haulout - 100m/109y	vessel w/in 100y /91m of an active haulout
31.1	haulout - navigation restrict	vessel w/in 100y /91m of an active haulout - navigation restriction
31.2	haulout - no navigation restriction	vessel w/in 100y /91m of an active haulout - no navigation restriction
32.0	haulout - disturbance	vessel w/in 400y /366m of active haulout causing any disturbance
32.1	haulout - disturb deliberate	any deliberate disturbance of active haulout
32.2	haulout - disturb maintain	disturbance with no attempt to move away from haulout
32.3	haulout - disturb but moved	disturbance but moved away
40.0	area restriction	
40.1	area restriction - SJIVNBZ 1	vessel w/in 1/4mile (440y /402m) of the shoreline in the determined zone with whales present
40.2	area restriction - lime Kiln	vessel w/in 1/2mile (880y /808m) of shoreline 1mile radius of Lime Kiln Light with whales present
40.3	area restriction - NWR	vessel w/in 200y /183m of U.S. National Wildlife Refuse (NWR) site
40.4	area restriction - RRER	vessel w/in 100y /91m of any Race Rocks Ecological Reserve shoreline
40.5	area restriction - RBMBER	vessel w/in the Robsin Bight Michael Bigg Ecological Reserve
40.6	area restriction - SJIVNBZ 2	vessel w/in 1/8mile (220y /201m) of the shoreline in the determined zone with whales present
50.0	aircraft -	
50.1	aircraft - low flying	aircraft flying lower than 1000feet (333y /305m)
50.2	aircraft - low circling	aircraft circling lower than 1000 feet (333y /305m)
60.0	kayak	
60.1	kayak - spread out	kayaks not rafted up (spread loosely) when whales are traveling in a relatively predictable pattern
60.2	kayak - 100m/109y	kayaks paddling w/in 100y /91m of whales
60.3	kayaks - launching	kayaks launching in area where whales are expected to travel
60.4	kayaks - offshore 1/4m	kayaks paddling farther than 1/4 mile (440y /402m) offshore when whales are present
